Data-Driven Genetics for Commercial Cowherds

The offering featured a broad selection of data-driven genetics developed to add fertility, maternal performance, growth, feed efficiency and carcass value to commercial cowherds. Buyers responded to bulls backed by Leachman ABCs and the \$PROFIT®, \$RANCH® and \$FEEDER® indexes.

With Appreciation

A special thank-you goes to the entire crew at the sale barn. Their hard work, hospitality and attention to detail before, during and after the sale helped everything run smoothly and provided a welcoming experience for buyers, bidders and consignors.

Most importantly, thank you to everyone who attended, bid online or invested in Leachman genetics. We greatly appreciate the confidence our customers continue to place in the program and look forward to seeing these bulls go to work in commercial cowherds throughout the region.
